Re: 1997 70hp Yamaha 2-stroke throttle adjust question You need to check the condition of your motor now that you have run it for a while with a problem and may have been running lean and hurt a piston. Check compression on all cylinders, check spark on all cylinders with a spark tester, check what the timing is doing at idle and WOT.

Hi all. Please can someone help me out here. I have an Evinrude 70hp, think its a 1978. The motor fires up pretty good and runs on the spot in neutral just great, tickover does seem a little high though. I took it out for the first time since buying last week and when I first pulled off it was f...
