## **Application Of Value Engineering Methodology File Type**

Value engineering (VE) is a systematic method to improve the "value" of goods or products and services by using an examination of function. Value, as defined, is the ratio of function to cost. Value can therefore be manipulated by either improving the function or reducing the cost. It is a primary tenet of value engineering that basic functions be preserved and not be reduced as a consequence of ...

## **Value engineering - Wikipedia**

Value Engineering is a powerful methodology for solving problems and/or reducing costs while maintaining or improving performance and quality requirements. Value Engineering can achieve impressive savings, much greater than what is possible through conventional cost reduction exercise even when cost reduction is the objective of the task.
