Basic Elements Of Landscape Architectural Design ...

Architectural Functions of Landscapes. It seems counterintuitive to say that there are architectural functions of landscapes. After all, architecture is by definition a built structure; the antithesis of a living landscape. However, there are several ways that landscape elements (trees, shrubs, perennials, etc.) act like structures.

Architectural Functions of Landscapes | Elements Studio

Landscape architecture is the analysis, planning, design, and management of the natural and built environment. Landscape architects enhance the quality of our lives by adding beauty—but they’re also problem solvers who analyze the environmental impact of proposed development and determine the best use of each site.
