The new standards would change that. They describe "weather and climate" as "core ideas" for students in grades 6-12. In grades 6-8, students are expected to be able to "ask questions to clarify evidence of the factors that have caused the rise in global temperatures over the past century," the standards say.

New plan for Pa. science standards acknowledge climate ...
Changes to student body. UC has more than 3,000 international students, but about 800 are stranded overseas, many due to travel restrictions. Xavier typically gets 60% of its student body from ...
