Label the Digestive System - Cut and Paste | All Kids Network

tissues of the body are divided into organ systems based on the function they accomplish. Seven organ systems are featured in this book. {The integumentary system is the skin, hair, and nails. It protects the body. {The skeletal system's bones, cartilage, and joints provide a moving framework for the body.

Easy Make & Learn Project

As soon as the paper cuts into the cells of your skin, your body springs into action. First, blood cells called platelets join together at the paper cut and form a clot to stop the bleeding. The platelets then release chemicals called cytokines into your bloodstream. Cytokines attract the attention of certain cells to start healing your cut.
