shame that fiction and non-fiction aren't separated, and you have to open a bookshelf before you can sort books by country, but those are fairly minor quibbles.

Muscle Energy Techniques Rar

Muscle Energy Technique (MET) is a form of a manual therapy which uses a muscle's own energy in the form of gentle isometric contractions to relax the muscles via autogenic or reciprocal inhibition, and lengthen the muscle. As compared to static stretching which is a passive technique in which therapist does all the work, MET is an active technique in which patient is also an active participant.
