There's an art and science to creating great presentation slides and Slideology gives you insight into both. When making presentations, you need to think visually. However, most organizations don't train people in thinking like a designer and we certainly don't learn visual language in school the way we learn written language.

Slideology is a combination of the words slide (as in PowerPoint slide) and ideology, which is an apt description for the book. Although there are specific prescriptions for making successful presentations, the book does a better job at presenting Nancy Duarte's ideology (although I would use the word methodology) for crafting presentations.
